## Strike Situation Change Believed Is Coming Within Next 10 Days or Two Weeks

Increasing Number of Men  
Inquiring When Plants  
Will Resume.

### LOCALS DEMAND BENEFITS

June 15; If Not Paid Members De-  
clare They Will Go to Work; Large  
Number Becoming Discouraged See  
No Hope of Gain by Remaining Out.

There is a very well defined in-  
crease in coal and coke prices in  
the Connellsville region that develop-  
ments in the strike situation will take  
place shortly, possibly within the next  
10 days or two weeks.

No one particular thing has occur-  
ed upon which to base a confident  
forecast of what will happen to change  
the situation from one of long and pa-  
tient waiting to one of activity, but  
several matters are receiving atten-  
tion as indicating that a break in the  
stagnation of the past nine weeks is  
at hand.

There is a very noticeable increase  
in the restlessness of men on strike  
because no definite steps have been  
taken to bring it to an end. At most  
plants, particularly those where a de-  
lay in the early days of the strike,  
restlessness is given expression in re-  
peated requests made by the men to  
superintendents as to the time the  
plants will start up. While some of  
the more prominent workers re-  
sist the idea of providing fairly well  
paid families, benefits from the union  
as a whole of credit from the independ-  
ent stores in the vicinity, many are  
selling the place very keenly. The  
cads of these households who are  
without funds or credit are growing  
more anxious every day to go to work.

The fact that the men on strike are  
solving no benefits from the union  
which a any of them expected would  
be forthcoming shortly after joining,  
beginning to arouse a feeling of re-  
sentment. A few days ago meetings  
of two of the locals in the Lower Con-  
nellsville district were held at which  
the subject was discussed rather vig-  
orously and with the result that the  
secretaries were instructed to notify  
the proper officials that in case bene-  
fits were not paid by June 15, the  
members of the locals would return  
to work. To what extent the same  
feeling prevails elsewhere in the  
region is not known, but the fact that  
this was the case in what has been  
regarded as a hotbed of the strike  
is looked upon as very significant  
of the attitude of a large number  
of the men on strike.

The gradual return of men to work  
is a plan running full of in part  
tending to discourage others who  
are hoping of bettering their situa-  
tion by remaining idle any longer,  
at the bulk of men are still deterred  
from going to work because of fear of  
being ostracized by their families,  
or of being ostracized by their  
neighbors in the mining town.

It is a happy thing when they are willing  
to see a change in all that is ap-  
pearing against them when they resume work,  
and they consider the situation with  
regard to their families. The words,  
"Your dad's a scab!" addressed by one  
 youngster to another are more potent  
than appeals of organizers in keeping  
idle until the strike is officially  
ended.

The regular situation has developed,  
however, of men who at one time  
and among their neighbors are  
strong in support of holding out, go to  
work and then come back home in  
the day and then come back home in  
the evening and argue against going  
to work. A very considerable number  
of families have moved from idle  
plants to others in operation and the  
men have taken jobs in the mines.  
Other men have left their families  
and gone to West Virginia or  
other fields where they have secured  
employment in non-strike mines where  
they will remain until the strike is  
over. It is some cases of eviction the  
plants have engaged trucks or wagons  
to be on the ground at the time  
a nearby plant, where employment  
can be had.

But the bulk of the men idle around  
some work in the garden a little and  
pass the rest of their time in play-  
ing cards or sleeping. It is among  
this group that a change of view and  
entirely must take place before  
there is anything like a so-called  
stampede to go to work. Apparently  
such a change is taking place and, in  
the view of those in closest touch with  
the situation, it may become very  
much more noticeable by the middle  
of the month or later.

### GREEN AND FEENEY ADDRESS MEETING AT CONTINENTAL

William Green, international sec-  
retary of the United Mine Workers of  
America, and William Feeney, head  
of the mine workers' organization in  
the Connellsville region, addressed a  
mass meeting of strikers and sym-  
pathizers at Continental No. 1 Tuesday  
evening. The crowd of about 1,000  
gathered in the hall of the Continental  
club, and the first bit of amaze-  
ment caused by your truly wonderful  
stand has now given way to the belief  
that you are capable of sticking  
together as one man, and in that event  
you are unbeatable, invincible and  
true United Mine Workers of Amer-  
ica.

Mr. Feeney said:  
"I want to caution the miners here  
today. We held a meeting at Dailey  
Park a short time ago and the next  
day there was trouble at Tower Hill.  
The operators claimed that the meet-  
ing was the cause of the trouble. I  
want to thank Mr. Areford who has  
permitted us to hold this meeting on  
his splendid piece of ground today. All  
who are in favor will say 'Aye!'"

"My friends," he continued, "I want  
to caution you against any form of  
disorder. Conduct yourself in the  
proper way. Over in Fairview they  
are talking about the dynamiting and  
arrest of terror. That kind of talk is  
put out just to get the public down on  
you. None of the union men have done  
it. They did the same thing in the  
last strike, but they are not going  
to get away with it here without a  
challenge."

### Hoover and Davis Make Attempt to End Coal Strike

WASHINGTON, June 7.—Secretary  
Hoover, in a report to the Senate to-  
day, disclosed that he and Secretary  
of Labor Davis had sought recently to  
bring about a settlement of the coal  
strike. He stated that he had been  
thought would lead to a settle-  
ment of the coal strike but that so far  
the efforts had been without result.

The commerce secretary's state-  
ment, which was the first intimation  
that the government had sought to in-  
tervene in the struggle between the  
United Mine Workers and operators of  
union fields, was contained in a re-  
sponse to the resolution of Senator  
Walsh, Democrat of Massachusetts,  
adopted by the Senate yesterday day-  
ing calling for information on the  
coal situation.

Replying to the inquiry in the  
Senate resolution as to "what action,  
if any, government agents have taken  
to terminate the strike," Mr. Hoover  
said:

"The governmental agencies have no  
legal authority to terminate or to in-  
tervene in the strike. Quite informally  
and repeatedly suggestions as to  
propositions on which the disputants  
might well confer and hopes for set-  
tlement have been made through the  
Department of Labor and this depart-  
ment, or both, but thus far the sug-  
gestions have been without results."

### KIWANIS CLUB TO ORGANIZE AT ITS BANQUET TONIGHT

First of the Dinners to Be Held  
Weekly Will Be Given at  
Smith House.

### MORE THAN 60 ENROLLED

Required Minimum to Obtain Chap-  
ter Is Quickly Obtained and Then Ex-  
ceeded; Connellsville Added to the  
More Than 500 Clubs in the U. S.

The Kiwanis Club of Connellsville  
will hold its organization dinner ton-  
ight at 8 o'clock at the Smith House.  
When permanent officers will  
be elected to carry on the work of the  
new body for the remainder of the  
calendar year. Although only 61  
members are required to put in a  
charter, the Connellsville club has  
with a charter list of 65 and it is ex-  
pected that this will be increased to  
a majority of the classification is  
filled. In the Kiwanis Club two men  
of each line of business are elected to  
membership. Several classifications  
have already been filled.

Charles L. Schmidt of Harrisburg,  
district representative of the inter-  
national Kiwanis Club, will have  
charge of the organization meeting.  
The Connellsville Kiwanis Club was  
organized by the following, who acted  
as temporary officers during the period  
of organization: President, Lawrence  
E. Cuno; secretary, George S. Con-  
nell; treasurer, J. Kirk Bennett; di-  
rectors, William Sellers, A. D. Norton,  
Jr., Howard C. Frank, J. Donald Por-  
ter, F. R. Graham, John Keister,  
Joseph K. Buttermore and J. M.  
Richey.

There are more than 500 Kiwanis  
clubs throughout the United States  
and Canada. The international organi-  
zation is more than six years old and  
has made a rapid growth. Kiwanis  
clubs meet at luncheon or dinner at  
stated intervals, usually once a week.  
Both Uniontown and Greensburg have  
active clubs.

The Kiwanis Club is essentially a  
civic organization. It is operated with-  
out profit, and for the mutual good of  
its members and the community. The  
get-together spirit is emphasized at  
all meetings.

It is expected that at the meet-  
ing tonight announcement will be made  
regarding the future meetings of the  
club which are to be held each week.  
No permanent place has been chosen  
but the committee composed of Mr.  
Richey, A. M. Haines and P. E. Cow-  
ker is expected to report and make  
recommendations on this matter at  
the meeting tonight.

Those interested in Kiwanis hope to  
be a medium through which Connell-  
sville will get definitely on the map.  
At least, they say, if they can get  
Kiwanis members from out of town  
they will no longer find it necessary  
to apologize for Connellsville by say-  
ing that it has neither a Kiwanis nor a  
Rotary club. Virtually all of the  
towns in Western Pennsylvania, West  
Virginia, Ohio and Maryland have  
either a Kiwanis or Rotary club, and  
many of them have both. Up to this  
time Connellsville has not been suc-  
cessful in starting either, but the en-  
thusiasm with which the Kiwanis idea  
has been taken up by more than 60  
Connellsville business men augurs well  
for the success of the organization.

### FIRE DESTROYS BUILDINGS AT FERGUSON MINE

Fire last night destroyed the boiler  
house and locomotive shed at the Fer-  
guson mine of the Connellsville Coal  
& Coke Company about one mile from  
Dunbar. The buildings were a total  
loss and the damage is estimated at  
about \$2,000.

Officials of the mine are convinced  
the fire was of incendiary origin and  
all available information has been  
given the state police and Sheriff I. L.  
Shaw. The mine had been closed for  
five or six weeks and it was only with-  
in the past week that operations had  
been resumed. The first coal was  
haunted yesterday and the burning of  
the sheds followed last night.

Operations will continue. It was  
said today at the office of the com-

the ground preparing to rebuild the  
burned structures.

### LaFollette Assails Supreme Court Decision in Coronado Case as "Ominous" to Labor

Significant, He Says, Because of  
Comment on Questions  
Not Involved.

By Associated Press.

WASHINGTON, June 7.—Declaring  
the decision in the Coronado case was  
"most ominous in what it foreshadows  
for the future of union labor in this  
country," Senator LaFollette, Rep-  
ublican, Wisconsin, today issued a  
statement in which he criticized the  
court.

The opinion, he stated, is "signifi-  
cant because of what the court says  
on questions not involved in the case,  
rather than anything it actually de-  
cided."

DES MOINES, Ia., June 7.—Non-  
committal acceptance at Washington  
by Senators Cummins and Rawson of  
Iowa of the news of the Smith Brook-  
land landslide for United States sen-  
ator aroused speculation in Old Guard

land would fit into the Republican  
machinery.

Returns 2,235 precincts out of 2,348  
for the Republican senatorial nomi-  
nation, giving Brookland 41.1 per cent  
of the total vote cast and sent Clif-

second place above Charles Pickett,  
the Old Guard candidate.

civil war.

### BALLOTS GO OUT TO RAIL WORKERS FOR STRIKE VOTE

Returnable June 30 by Order of  
Union Chiefs, Following  
Conference.

### TIEUP JULY 1-PROBABLE

Reductions Ordered by Labor Board  
Have Reduced Wages to Level Which  
Is Below American Standard, Head  
of Rail Employees Department Says.

By Associated Press.

CHICAGO, June 7.—Strike ballots,  
returnable June 30, went out today to  
railroad employees affected by wage re-  
duction orders of the United States  
Railroad Labor Board. The vote will  
be taken by unions whose 1,200,000  
members are affected by orders issued  
or pending.

Paralysis of the nation's roads July  
1 loomed as a possibility as a result  
of the reductions which have already  
slashed \$10,000,000 off the wages of  
the workers. The wage cut is effective  
July 1.

Meanwhile the board is preparing to  
hear disputes between shop craft em-  
ployees and some of the roads over  
alleged reductions on piece work.

CINCINNATI, June 7.—Railroad  
wages under the Railroad Labor  
Board's orders for seven of the larger  
groups of the country's workers soon  
will be a level which does not measure  
up to the American standard of living  
and which will make vigorous protest  
necessary, according to E. M. Jewell,  
head of the railway employees depart-  
ment of the American Federation of  
Labor, in expounding the quick strike  
vote action of the conference of rail-  
way union heads.

In less than two hours time, heads  
of 11 railroad unions arrived at an  
understanding whereby each organi-  
zation will take a strike vote immedi-  
ately on the issues of wage reduction  
orders from the Labor Board for its  
membership. The vote will be return-  
able in 30 days, and the strike vote  
for the six shop crafts mapped out by  
President Jewell's orders will be in  
his office in Chicago by June 30.

The strike vote decided on Tuesday  
will affect about 1,000,000 of the  
country's railway employees—all ex-  
cept the train service men, whose  
wages are not in dispute before the  
board.

Representatives of all the railroad  
labor organizations with the exception  
of the "Big Four" brotherhood, were in  
Cincinnati to attend the opening to-  
day of the series of conferences.

A conference of executives of all  
the brotherhoods, including the "Big  
Four," is not yet in prospect, at least  
not on the wage question, Mr. Jewell  
said.

The use of the writ of injunction

### Ears of Dogs Killed Required in Support Of Constables' Claims

HARRISBURG, June 7.—The State  
of Pennsylvania will pay no com-  
pensation for killing of unlicensed dogs  
under the act of 1921 unless police  
officers or constables send in the ear  
tips from the dogs with properly at-  
tested claims. The Bureau of An-  
imal Industry does not propose to set  
sight on any possible scandal, such  
as narrowly averted in connection  
with game bounties some years ago.

A ruling has been made that when  
an officer kills an unlicensed or ev-  
erless dog he must make his claim  
for the \$2 allowed by law and send  
in the tips of the ears.

Richard Davis  
To Be Buried at  
Old Tioga Home

The body of Richard Davis, former clerk of county of Fayette county, who died yesterday in Pittsburg, has been taken to Blossburg, Tioga county, where the funeral service will be held tomorrow at Friday.

Mr. Davis had been ill four or five years and had spent much of that time in hospitals in the hope of regaining his health at least in a degree. He underwent several operations both at the West Penn Hospital, Pittsburg, and the Presbyterian Hospital, Philadelphia, but relief was only temporary. He was born at Blossburg, Tioga county, June 27, 1855, and spent his boyhood and early manhood there. He was married to Miss Elizabeth Holmes, of Blossburg, who with the three sons, D. R. and H. A. Davis of Pittsburg, and H. W. Davis of Washington, Pa., survives him.

Education as a mining engineer, Mr. Davis came to Connelville, this county, after leaving Blossburg, where he resided in Connelville and at Brownsville before moving to Uniontown where he still retained his residence in the First National Bank Building. Becoming interested in politics, he was elected to the State Legislature in 1899 and served three consecutive terms. He later served Pittsburg county as clerk of courts, completing his second term January 1, 1920. He took an active interest in every community in which he resided serving as school director and in other minor offices at different times. He was a member of the U. P. O. B. No. 376, Uniontown, and of the Knights of Pythias of Southside. Although a regular attendant at the Grand Bethel Baptist Church in Uniontown he never withdrew his membership from the Welsh Congregational Church of Blossburg.

Mr. Davis was at one time editor of the Coke Country Chronicle, a labor paper published in Connelville.

## A WORDY AFFAIR.

"Senator, would you be so kind as to tell me two words just what is behind this shouting controversy?" "I'm sorry, major, that I can't oblige you, but when I return to Washington I will be glad to send you a copy of a speech I delivered some weeks ago. It is only 20,000 words in length, but I believe, in the short time allotted to me, that I—ahem—succeeded in showing that the matter calls for an extended debate."

## Flammarion Submits Vivid Evidence of Soul Survival From Viewpoint of Science

By Associated Press.

PARIS, June 7.—Conclusions of Camille Flammarion, the French astronomer, from the study of a few hundred cases along purely scientific lines and apart from religious or spiritualistic viewpoints, are that the soul lives after decomposition of the body, is endowed with faculties still unknown to science and can manifest itself at a distance without the mediation of the senses.

I have spent 50 years studying the question, the astronomer says, and have applied to it the same rules as to scientific research. I excluded every example which would not stand the test of scientific verification.

Among the proofs offered by Flammarion are cases of dead persons fulfilling promises, giving notices of their own demise and giving warnings of events which afterward materialized even such as the execution of vengeance for wrongs through mediums previously unaware of the wrongs done.

Among the proofs cited are the following:

The late composer Saint-Saens just before his death, related the fact that on the last day of the war of 1870 while he was dining gayly with his comrades at an advanced post he distinctly heard the chanting of the theme around which he later composed his famous requiem. From this phenomenon he had a presentiment of misfortune and later learned that his friend, the great artist, Henri Regnault had died at that same instant.

A patient of Dr. Castiglione, of Palermo, says Dr. Flammarion made a pact with him that if he died before the doctor did he would come back and give evidence of the survival of the soul. A few months later the doctor's attention was drawn to the movement of a candelabra which continued

until a piece of it was detached and placed on a table as if laid there by a careful hand. Two days after and the doctor learned that his patient had been dead several days. The knocking of the candelabra was the sign agreed upon by which the pact was to prove the survival of the soul.

Another instance cited by Flammarion is the case of a young man employed by a Glasgow manufacturer. The young man was died of poison which he had mistakenly drunk for whiskey appeared after death to his employer and begged him not to leave what he was going to be told. The employer, however, was not aware of the young man's death. He was told a few minutes later that the boy had committed suicide. A careful investigation, however, proved that death was due to taking the poison by mistake.

Flammarion reproduces a great number of examples already published in his psychical works, showing manifestations of the spirit at different periods after death. A careful investigation, however, proved that death was due to taking the poison by mistake.

## REGULAR PERIODS OF FAMINE

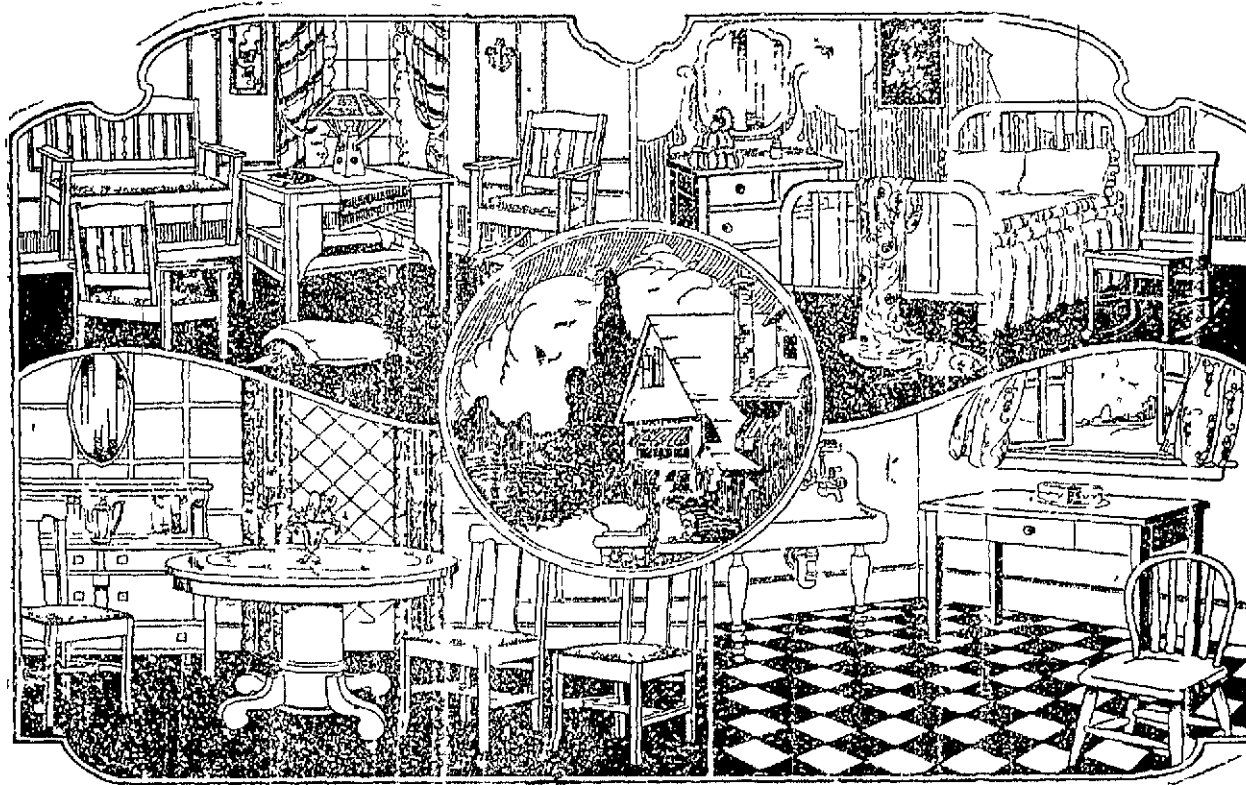

Every Seven Years Starvation Threatens Indians and Eskimos in the Canadian North.

Every seven years starvation stalks in the Northwest. The snowshoe rabbits die. And just as surely as they die so do the Eskimos and the Indians of northern Canada.

It was in one of these fatal years that Alanson Skinner, curator of the Milwaukee museum, entered the Hudson Bay country on an expedition trip for the American Museum of Natural History, the Milwaukee Journal reports.

Arriving at Moose Factory, he was surprised at the stories he heard. Every hunter and every trapper from the wilds brought him back

The natives were dying by hundreds. Literally starving to death. It was a case of the survival of the fittest. Should a man turn his back upon even his best friend for a woman he was apt to be killed. Cannibalism was rife. Skinner saw many gruesome sights as he pushed on from Moose Factory to Rupert's, the last outpost. At one time he sat down to eat beside a French trapper who arrived at Rupert's. He noticed that the man watched him with a strange light in his eyes. He left the table, but on

Looking back found the man's eyes were still fastened upon him. "What ails that fellow?" he inquired of an Indian.

The last human flesh once of cousin Frenchman and Indian guide, the man explained. "Now he crazy. Must have more all time."

Skinner was mighty glad that he had not encountered the crazed Frenchman alone on the trail, he said.

At December 31st Usually "Mamma, what's this?" asked a little three-year-old picking up a cat and her mother brought home.

"It's a calendar, dear. It's something by which we tell the time of the year or the month or week."

The little one turned it over carefully for a minute or two. "Mamma," she inquired anxiously, "where do you wind it up?"

## Helicopter Not Tried Out Yet Says Inventor

By Associated Press.

LONDON, June 7—Louis Brennan, in an interview with the Evening News, said reports appearing in other English newspapers regarding the success of the inventor's helicopter were unfounded. "The simple truth is that the machine has not been out of its shed," he was quoted as saying.

A successful helicopter, the dream of aviation experimenters for decades, has been devised by Brennan with the aid of the British government according to the Pall Mall Gazette. It is claimed the new machine can rise from and land on a small roof hovering stationary in the air, rise to a height of 2,000 feet and fly 60 miles an hour.

### Lenox Club Defeats Juniors In Hard-Played City League Game; Benefit Clash Tonight

Moorman and Hauser Both Do Well on Mound; Some Hard Hitting.

#### JUNIOR ERRORS COSTLY

One of the best City League baseball games seen this season, was played at Fayette Field last evening when the Lenox Club defeated the Junior O der 4-1. The Juniors outbatted the victors getting six hits to three and as so smote the ball hard; but Moorman lightened in the pinches and kept the runners on base. He had 17 strikeouts to his credit.

Shella Hauser was on the mound for the Juniors. He pitched a good game, holding the Lenox batters to three hits, but errors back of him proved costly. The game went for seven innings.

The Lenox team drew blood in the second frame, scoring two runs. The Juniors got their only tally in the fifth when Baker crossed the plate. Extra base hits were made by the Juniors only, Lawson securing a brace of doubles and M. Coughenour one. H. Coughenour and Sheetz each rammed the pellet for a triple.

Thursday evening the Baltimore & Ohio team will play the Lennox Club in a "benefit" game at Fayette Field. The railroaders are determined to even things up for the previous white-washing received at the hands of the league leaders. Barnhart will be the Lennox selection for the mound and Lohr will likely pitch for the railroaders.

#### M'GRAW LEADER IN TRADING

New York Manager Holds Record for Pulling Off Big Deals—Herzog Most-Traded.

Connie Mack is a developer of ball players. Connie is also fairly strong on selling them for real cash. John McGraw of the Giants is a go-getter manager. When he wants to strengthen his ball club he puts over a trade.

McGraw is generally regarded as the

champion trader of all times. No less than ninety-two ball players have been involved in his so-called "big deals."

Charley Herzog has been McGraw's most traded ball player. In 1909 he traded Herzog to Boston for Beals Becker. In 1911 he sent Herzog and Hank Gowdy to Boston for Herzog. In 1914 he traded Herzog and catcher Harley to Cincinnati for Bob Becker.

In 1917 he decided he again needed Herzog, so he sold up his infield and sent Rousch, McKeehan and Matthewson to Cincinnati for Herzog. In 1918 he traded Herzog to Boston for Larry Doyle and Jess Barnes and cash.

## At the Theatres

## THE SOISSON.

"THE LOTUS EATER."—A First National picture, presents John Barrymore, the famous actor, in the stellar role. The picture is unusual for a large variety of reasons, but chiefly because of the talent which has been employed in its production. The name of Barrymore or Neilson alone on the picture is sufficient evidence that it is extraordinary, but there are other "big names" accredited to it. Albert Payson Terhune, one of the most popular novelists, wrote the story and George Ade, the humorist, wrote the subtitles. The supporting cast is especially noteworthy, for it includes Wesley Barry, Colleen Moore, J. Barney Sherry and Anne Q. Nilsson. The Mediterranean, New York City, Palm Beach and a tropical island, furnish the settings for this story of love, adventure, hatred and intrigue. Barrymore plays the part of Jacques Lenoir, who does not see a woman until he has reached the age of 25. During those years he has traveled all over the world in his yacht, but has never set foot ashore, in compliance with the request of his father. But when his time expires, and Barrymore meets a young woman, the complications come thick and fast, and he discovers why his father made the request. Tomorrow, Friday and Saturday Anita Stewart will be seen in "Her Mad Bargain."

## THE PARADISE.

"THE NIGHT ROSE."—A Goldwyn picture, is the feature attraction today and tomorrow. It is one of the best acted pictures that has been seen at this theatre in some time. Lon Chaney, as a king of the underworld; Betty Schade, as his discarded sweetheart; Leatrice Joy, the new object of his affection, who is in love with an innocent henchman, played by Cullen Landis. Other well-known players in the cast are Richard Tucker, John Flowers, Mary Warren and Edythe Chapman. The climax of the picture takes place in a magnificent ballroom, where the underworld czar is about to dance with his new "girl." But in order to get her name out of the way, he has had him shot. Though this turns out not to be fatal, it gives the girl the point of appearing at the ball, with the intention of taking the gangster's life. How her aim is thwarted but her intentions carried out by another, forms one of the most exciting moments in a picture replete with thrills. All of the incidents in the story are founded on actual happenings that have come to the attention of Leroy Scott, the author, while he was engaged in doing social service work in several large cities.

## THE ORPHEUM.

"THE LOST ROMANCE."—The leading attraction today, is a Paramount picture, featuring an all-star cast. What is romance? Is the real romance of love and life found in the moonlit garden, the scent of a delicate flower, the delicate strains of sweet music? Such, generally, is youth's impression of romance, but in "The Lost Romance," it is revealed that genuine romance will be found elsewhere. This picture embraces an all-star cast which includes Fontaine La Rue, dainty character actress, Conrad Nagel, Jack Holt and Lois Wilson. The story deals with two men, who fall in love with the same girl. This romance unfolds at the home of Aunt Doris, who has been disappointed in love in her younger days. The girl refuses one of the young men, an explorer, and accepts the other, a physician. After five years, the girl fails to find in her life with her husband, the romance she had hoped for. The explorer returns, the girl turns to him and the two openly declare their love. Then the child of the wedded pair disappears and in her anxiety, the mother forgets her new love and with the return of the boy she awakens to the realization of what true love-romance is. Tomorrow David Powell will be seen in "The Mystery Road."
